

( HEALTHCARE )

**HELPING YOU KEEP PATIENTS + STAFF SAFE IS OUR HIGHEST PRIORITY**

Today's healthcare environments must comply with many safety and security standards while also providing a positive patient experience. With experience protecting all types of healthcare facilities through any emergency and in any phase of the building's life-cycle, our team can help you navigate your toughest challenges and give you peace of mind through training, technology and preventive measures. We can also continually provide Life Safety Code Assessments, failure analysis and ongoing code and standard compliance support while helping you stay ahead of the curve as your needs and regulations change.

**How We Help Our Clients**

- + Dedicated team of healthcare experts with 40+ years of experience working exclusively in healthcare
- + Web-based management tools providing real-time situational awareness and a central dashboard
- + Experience to address prevention and evacuation procedures by training your staff in realistic emergency conditions
- + Leading experts in the Life Safety Code and other healthcare-related codes and standards to help you maintain your design vision while enabling best practices for patient acuity

**Facility Types**

- + Ambulatory / Outpatient Centers
- + Assisted Living
- + Hospitals
- + Imaging and Radiology Centers
- + Laboratory and Research
- + Medical Office Buildings
- + Nursing Homes / Skilled Nursing

At Jensen Hughes our team of engineers, scientists and consultants work as one team to address the complexities of safety and security to help our clients protect what matters. Mitigating the factors that could put lives, property and reputations at risk has been our objective for over 80 years. We're dedicated to advancing the science of safety through technology, knowledge and best-in-class research and development.
